### Introduction & Programme Overview

FutureLife-Now! is a regional school-based programme aimed at reducing new HIV infections and increasing ART adherence amongst young people in the SADC region. To achieve this goal, the programme utilizes three key levers necessary for behavior change: (1) factually accurate HIV/SRHR information; (2) accessible youth-friendly HIV/SRHR services and support; and (3) learner agency that empowers young people to make decisions and take actions in areas that impact their lives. The important crosscutting issues of climate change and gender are integrated into all programme activities. MIET AFRICA is SADC's technical assistance partner, supporting SADC with programme implementation at the regional level and Member States at the country level.

Due to the impact of the COVID-19 pandemic, the FutureLife-Now! programme will also provide emergency COVID-19 support to high risk areas in the four FutureLife-Now! Member States.
